

# Nationwide Foam, Inc.

## College and University Achievement Program

### Real Recycling - Real Results

Today's Colleges and Universities do an extraordinary job recycling. On average, each institution recycles close to one million pounds of material every year.

**Nationwide Foam** has the ability to greatly enhance your recycling statistics without increasing expenditures. For example, when replacing as few as four average sized roofs on campus, an additional 100,000 lbs of material, 10% of the yearly average, will be diverted from the local landfill to be recycled.

**Nationwide Foam** will track all of the re-roofing material diverted from landfills; provide real time updates outlining the total number of pounds and square feet of material diverted from landfills. Each College and University will have secure web access to monitor their progress and their achievements.

**Nationwide Foam's College and University Achievement Program** recognizes those institutions that encourage innovation in recycling.

Program Milestones to Achieve

<b>Nationwide Foam REAL RECYCLING - REAL RESULTS</b>				
<b>Material</b>	<b>Bronze</b>	<b>Silver</b>	<b>Gold</b>	<b>Platinum</b>
EPDM / TPO	20,000 Lbs	50,000 Lbs	100,000 Lbs	1 Million Lbs
<b>OR</b>				
Rigid Foam Insulation	16,000 Square Feet	40,500 Square Feet	81,000 Square Feet	270,000 Square Feet
